

Spirit AeroSystems Enters Agreement with Aviall for International Parts Distribution

Wichita, Kan., Oct. 4, 2006 -- Spirit AeroSystems Inc., today announced that it has entered into an agreement with Aviall Services Inc., of Dallas, Texas, for international parts distribution. The contract covers all markets outside the United States and Canada.

Under the terms of the agreement, Aviall, a leading provider of new aviation parts and related aftermarket services, will be responsible for sales, marketing, forecasting and planning in support of Spirit and its customers inside Aviall's coverage area.

Spirit designs and builds assemblies and components for commercial aircraft, including the 737 fuselage, as well as thrust reversers and nacelles for a number of Boeing models.

"The selection of Aviall to represent our products to international customers was a natural," said Carolyn Harms, Spirit AeroSystems Vice President and General Manager, Aftermarket and Customer Support. "Their distribution network spans the breadth and depth of the marketplace, using a combination of top-notch people, locations, inventory holdings and technological competency to deliver the highest levels of customer service."

Headquartered in Wichita, Kan., Spirit AeroSystems Inc., supplies commercial airplane assemblies and components to The Boeing Company, Airbus and Raytheon. In addition to its Wichita facility, the company has operations in Tulsa and McAlester, Okla., and the United Kingdom.

Aviall is a leading solutions provider of aftermarket supply-chain management services for the aviation and marine industries. It distributes products for approximately 220 manufacturers and offers approximately 900,000 catalog items from customer service centers located in North America, Europe, and Asia-Pacific. Additional information on Aviall is available at www.aviall.com.
